A Few Words About This Project

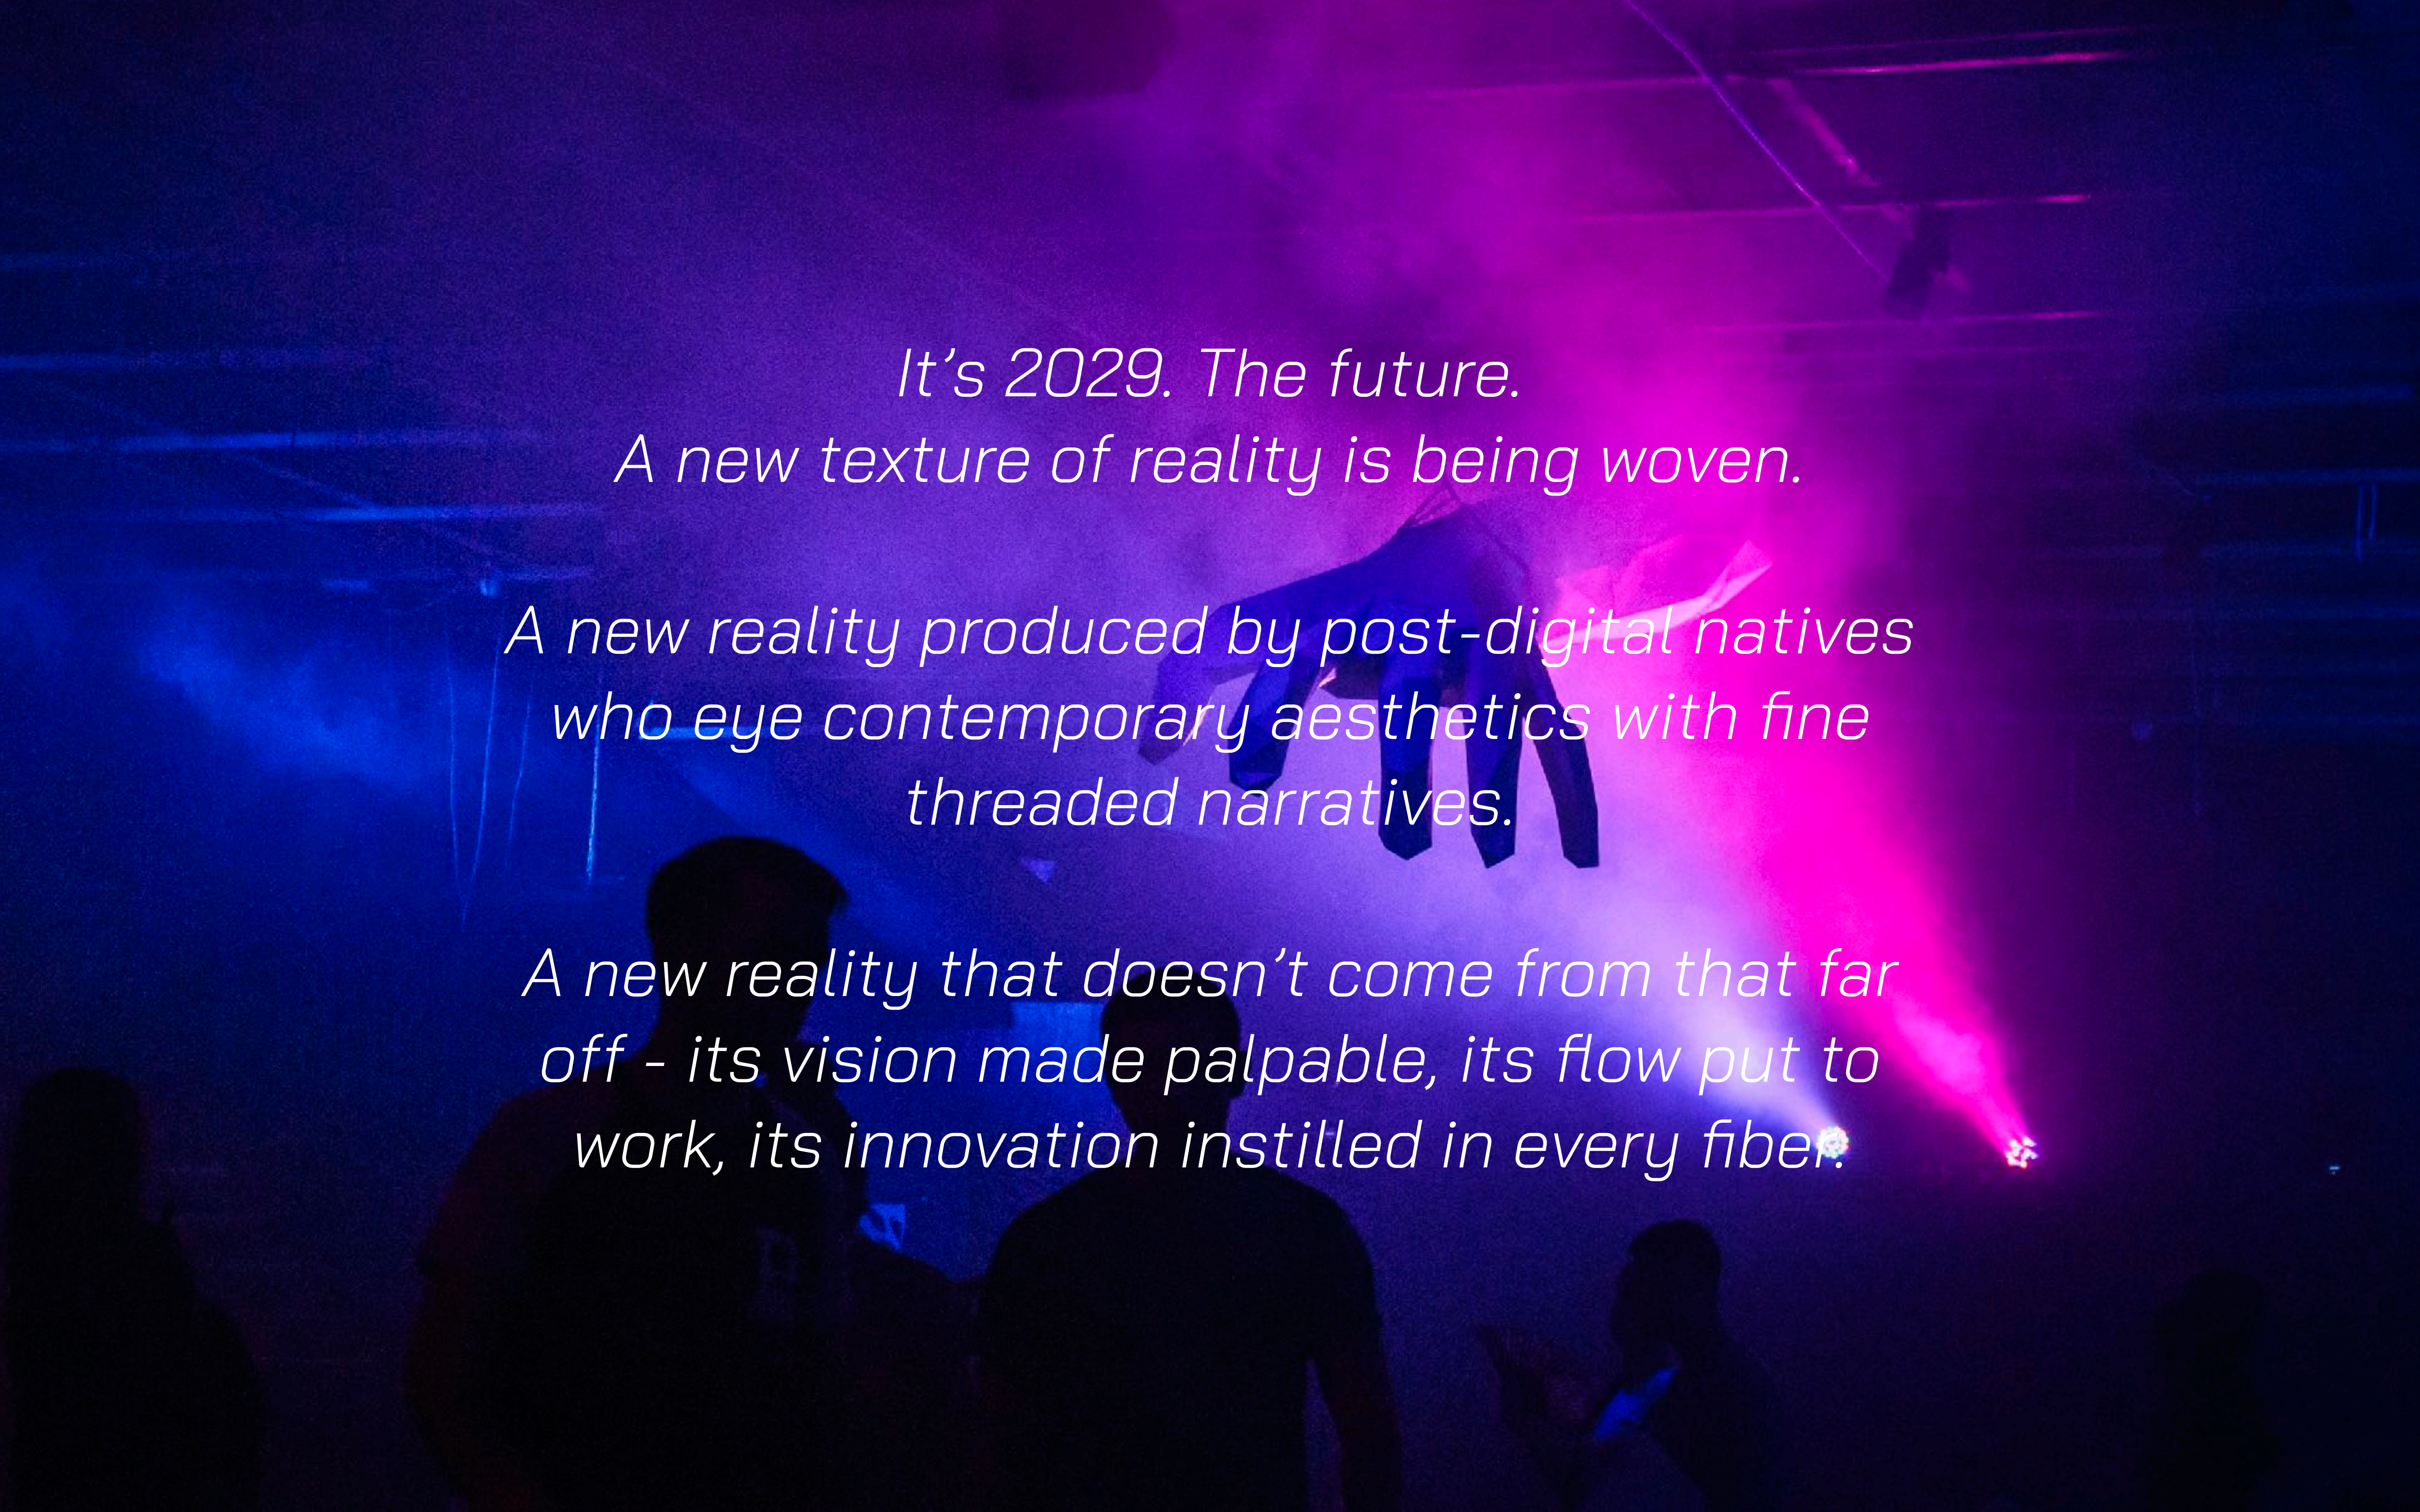

Short description A wonderful serenity has taken possession of my entire soul, like these sweet mornings of spring which I enjoy with my whole heart. I am alone, and feel the charm of existence in this spot, which was created for the bliss of souls like mine. I am so happy,

WHO IS

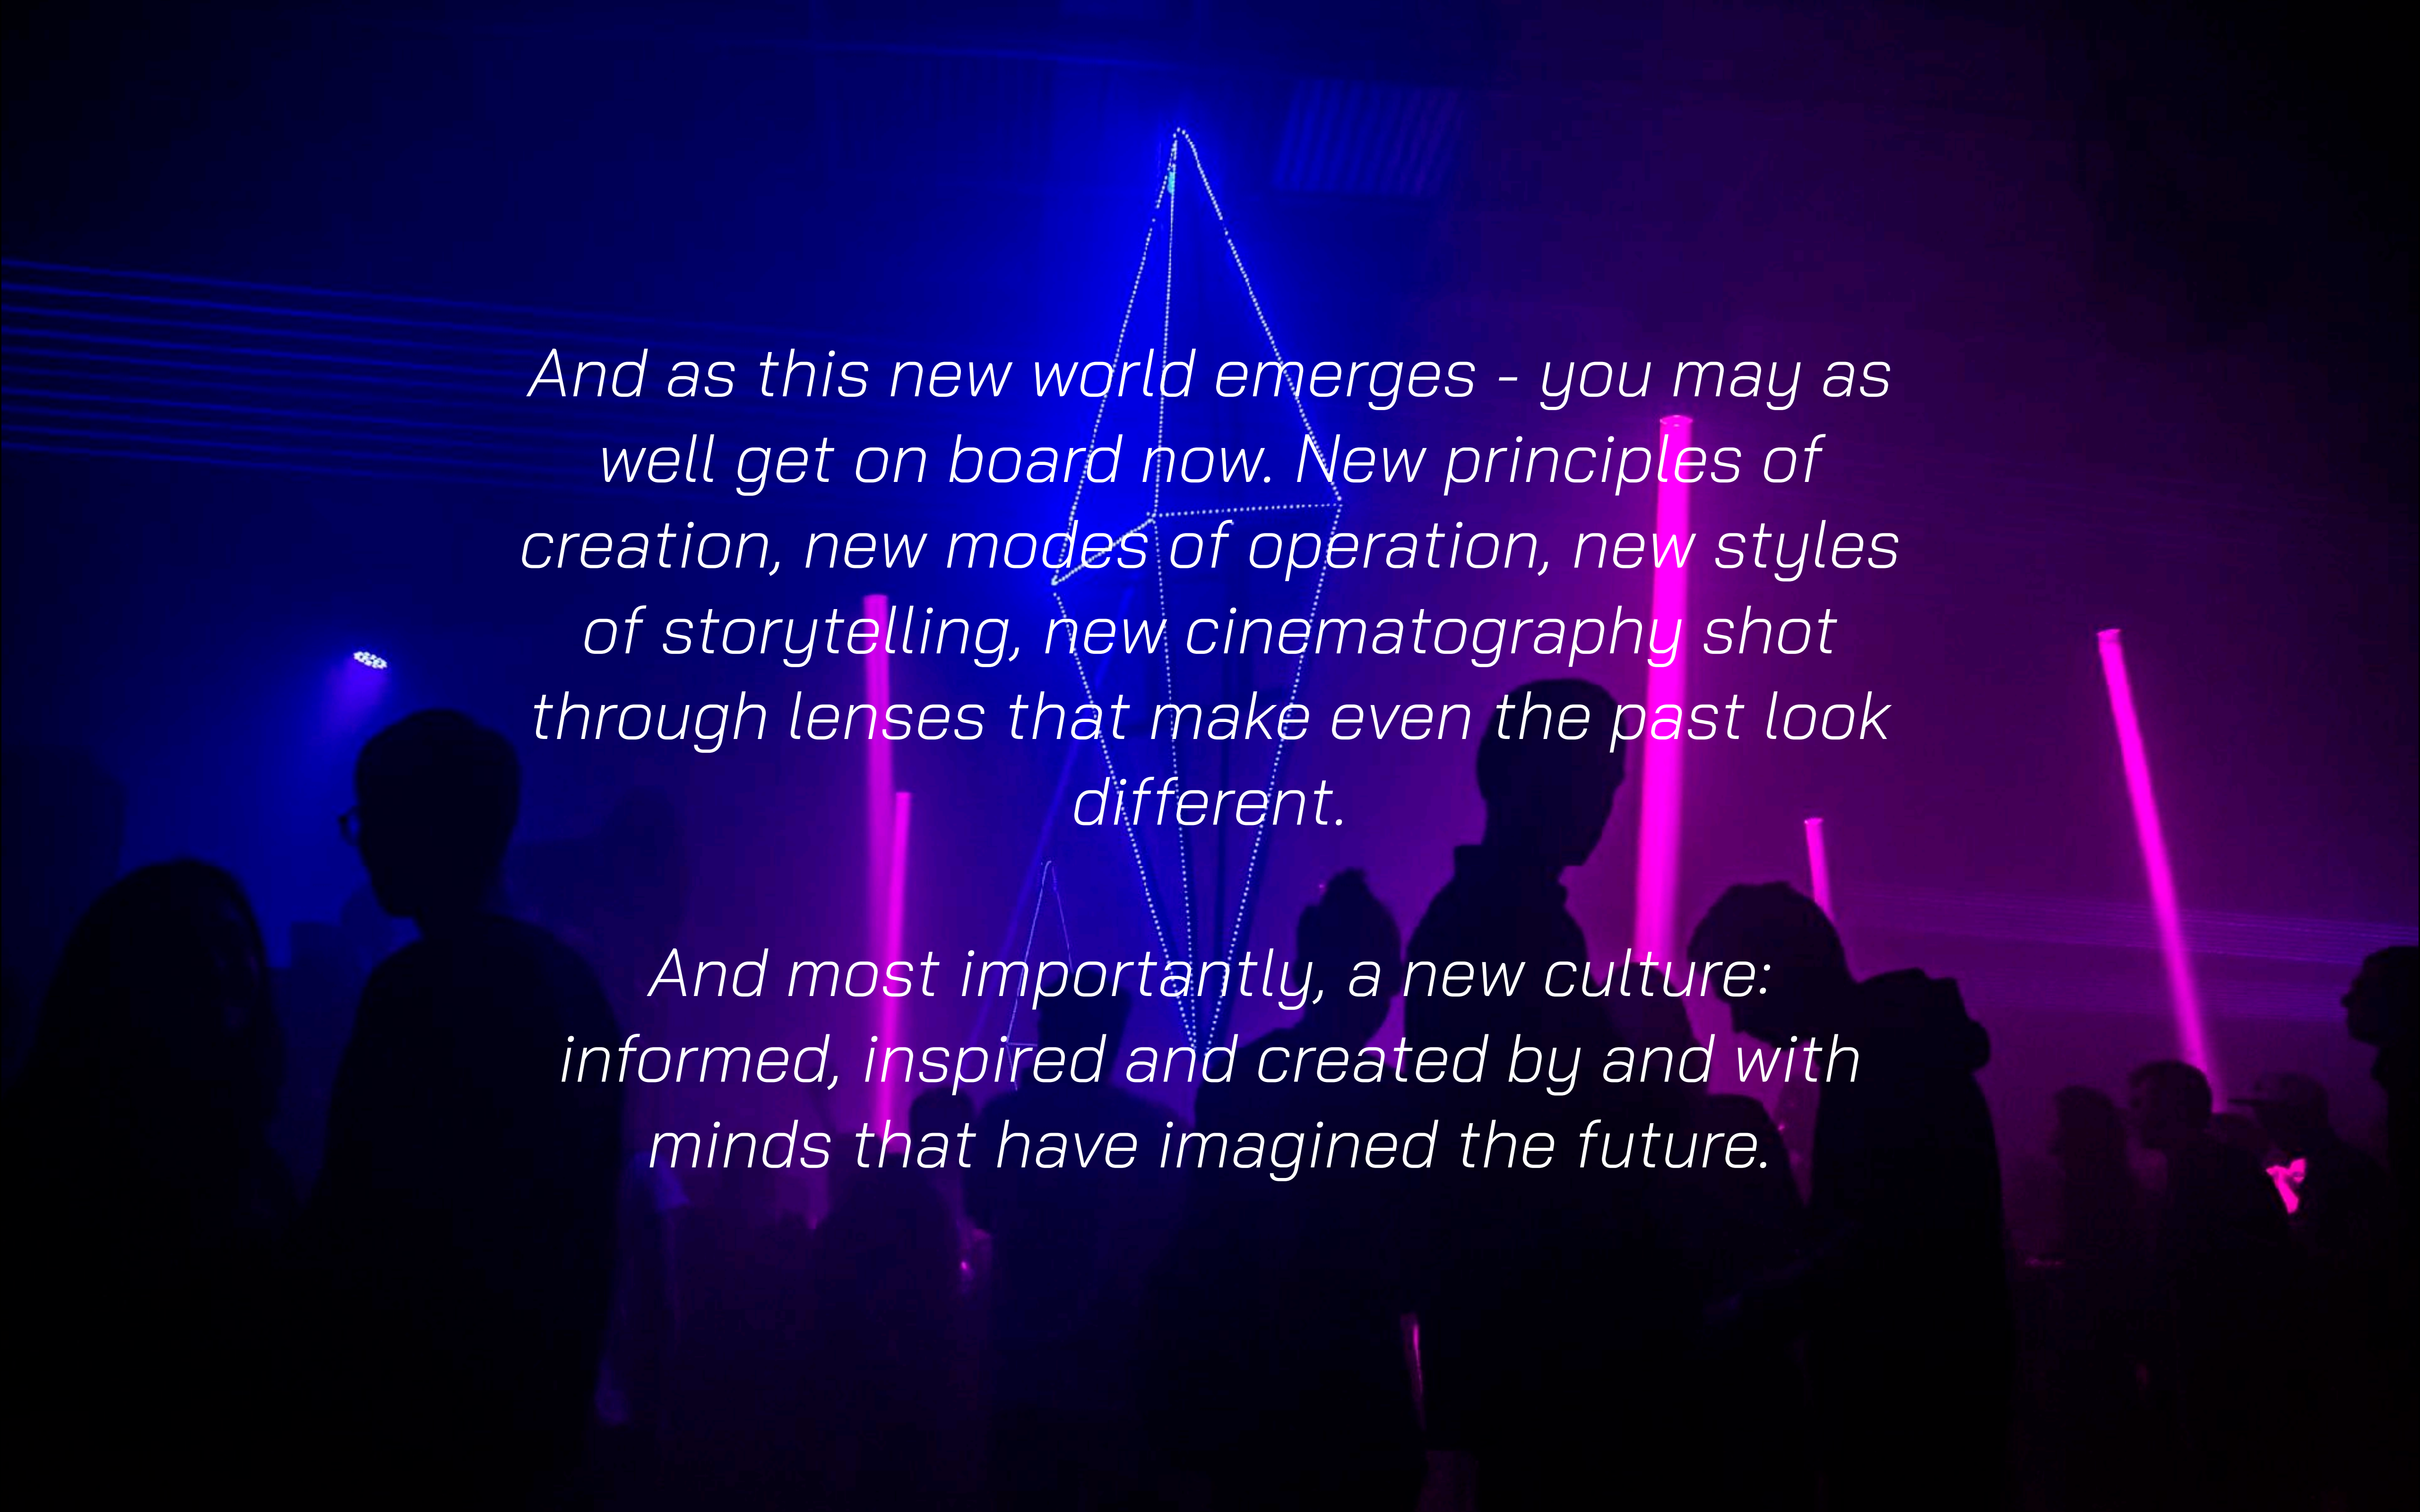

.2029
PRODUCTIONS

*It's 2029. The future.
A new texture of reality is being woven.*

*A new reality produced by post-digital natives
who eye contemporary aesthetics with fine
threaded narratives.*

*A new reality that doesn't come from that far
off - its vision made palpable, its flow put to
work, its innovation instilled in every fiber.*

A crowd of people is seen from behind, looking towards a stage. The scene is illuminated by vibrant blue and red laser lights. A large, glowing wireframe pyramid structure is visible in the background. The text is overlaid on the image in a white, cursive font.

And as this new world emerges - you may as well get on board now. New principles of creation, new modes of operation, new styles of storytelling, new cinematography shot through lenses that make even the past look different.

And most importantly, a new culture: informed, inspired and created by and with minds that have imagined the future.

It's 2029. Production houses no longer have names, but numbers. We walk on streets of data. God is in the cloud.

Stay tuned for the next update.
